

Jacobsen Declaration Exhibit AG

The screenshot shows a Windows-style application window titled "Template Verification Tool v1.0". The window has a blue title bar with standard minimize, maximize, and close buttons. Below the title bar, there are two tabs: "KAM" and "JMRI", with "KAM" currently selected. The main content area is divided into several sections:

- Batch operation section:** Contains the text "Batch operation - convert all files in this directory:" followed by a text input field containing "directory chosen" and a browse button (three dots).
- XML file section:** Contains a label "XML file:" followed by a text input field containing "file to be processed" and a browse button.
- Manufacturer section:** Contains a label "Manufacturer" followed by a dropdown menu showing "select manufacturer".
- Decoder version section:** Contains a label "Decoder version:" followed by two empty text input fields.
- File name section:** Contains a label "File name:" followed by an empty text input field.
- Checkboxes:** Below the file name field is a checkbox labeled "Convert JMRI template into a KAM template", which is currently unchecked.

At the bottom of the window is a table with two columns: "Key" and "Value". The table is currently empty, showing only the header row.

Key	Value
